

EMBONY RODI BRIAN

Computer Engineer | CEO & Founder of Baia Creative Solutions

Toamasina, Madagascar (remote-friendly) · +261 34 26 331 32 · embony.rodibrian@gmail.com · rodibrian.github.io/portfolio · linkedin.com/in/rodibrian-embony

PROFESSIONAL PROFILE

Computer engineer (Master's in Computer Engineering, 2025) and founder of Baia Creative Solutions, with combined experience in software development (Web, Desktop), project management, and business leadership. Trained in full-stack development (Java/Spring Boot, C++/Qt, Python, JavaScript) and database design, I have led projects ranging from building web interfaces to designing a complete ERP system for a wholesale client. Today, as the head of my own digital services company, I bring together technical skills, project/client management, and an entrepreneurial mindset. My background also includes a two-year international mission, which strengthened my leadership and my ability to adapt across cultures. I am open to technical collaborations, consulting work, and development opportunities, mainly remote.

KEY SKILLS

Development & Engineering

- Languages: C, C++, Java SE, JavaScript, Python, PHP, SQL
- Frameworks: Qt, Spring Boot, Bootstrap
- Databases: MySQL, PostgreSQL, SQLite
- Software architecture and database design

Management & Entrepreneurship
